# Project

# Description

This is a UX/UI Project for Be My Fridge. The idea is to create an app for a convenient and efficient refrigerator organizer. The app, Be My Fridge helps users add, shop, and organize their groceries easily. The efficient way of organizing inventory will lead to saving money and a healthy lifestyle.

# PROJECT OVERVIEW

## The Problem:

Organizing a fridge can be challenging on a busy day. Sometimes it is hard to know if you had a certain item in the refrigerator. You end up wasting so much food and money.

## The Solution:

The solution is to use an app that helps you organize and manage your groceries in the refrigerator. The app displays a list of items in the fridge and notifies expired items. You can also shop via the app when things are low in stock.

# TARGET AUDIENCE RESEARCH

## Demographics

## How often do you use online grocery delivery?

## How often do you find expired food in the fridge?

## What do you find challenging with your refrigerator?

## Do you like the idea of a Fridge Organizer app?

# USER RESEARCH

## 01 Pain Point

Difficult to track what items are in the fridge and added items.

## 02 Pain Point

Difficult to organize items in the refrigerator.

## 03 Pain Point

Difficult to know what items have been expired and need to be replaced.

## 04 Pain Point

Inefficient to order items that are low and online shopping separately.

# COMPETITIVE AUDIT 1

+ successes  
- drawbacks

## NO WASTE

**Competitor Type:** direct

**Product Offering:** Food inventory, manage, and organize

**Price:** \$\$

**Website:** <https://www.nowasteapp.com>

**Business size:** Small

**Target Audience:** working adults

**Unique Value Proposition:**

- Add food from a library of +200 food items
- scanning
- Check food consumption status

## APP OR MOBILE EXPERIENCE

Good

- + App is well-designed and easy to use
- + Smooth item entry process
- No QR code scanning feature
- Drawbacks

## INTERACTION FEATURES

Excellent

- + a variety of food items library
- + Track your food waste and value loss,
- + List for pantry and freezer.
- + Plan a meal.
- not various item icons

## INTERACTION ACCESSIBILITY

Needs Work

- + Video instructional tutorials
- + easily recognizable images and icons for food items
- Not accurate notifications
- no sound when scanning or notifications

## USER FLOW

RATING

- + easy adding items by scanning and icons
- + easily track food consumption progress

## NAVIGATION

Good

- + Easy basic navigation
- + Clear indication of clickable elements

## BRAND IDENTITY

Good

- + Simple and clean
- does not look like a refrigerator

## TONE/ DESCRIPTION

Needs Work

- difficult terms used without image
- + professional - not friendly
- + explains information with diagrams and charts

# COMPETITIVE AUDIT 2

## SAMSUNG

### Samsung Family Hub

**Competitor Type:** Indirect

**Product Offering:** Make shopping lists, buy groceries, browse recipes, order

**Price:** \$\$\$\$

**Website:** <https://www.samsung.com/us/explore/family-hub-refrigerator/apps/>

**Business size:** Large

**Target Audience:** Families

**Unique Value Proposition:**

- Create a shopping list
- Buy groceries via Instacart, online shopping app

### APP OR MOBILE EXPERIENCE

Excellent

- + App is well-designed and easy to use
- + Easy online ordering process

### INTERACTION FEATURES

Excellent

- + Built-in camera to view inside the fridge
- + Create and share shopping lists.
- + Get instant access to recipes, photos and videos, including ratings and reviews.
- + Plan meals based on the food inside your refrigerator

### INTERACTION ACCESSIBILITY

Great

- + No manual inventory entry needed
- + Easily recognizable images and photos
- + share information with community

### USER FLOW

Good

- + Easy and useful organization and order process
- + Straightforward user flow
- manual repetition

### NAVIGATION

Good

- + Easy basic navigation
- + Clear indication of clickable elements

### BRAND IDENTITY

Needs Work

- + Simple and clean
- No brand logo design, same as other refrigerator lines

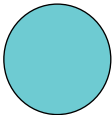

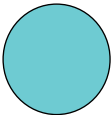

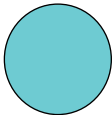

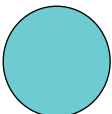

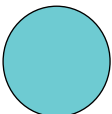

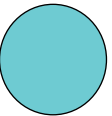

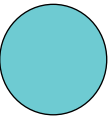

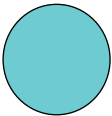

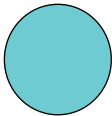

### TONE/ DESCRIPTION

Needs Work

- + Easy description of features with images and icons
- The branding of the Samsung Family Hub is vague

# USER PERSONA

**Stephanie K. (36)**

<b>Education:</b> Master's	<b>Income:</b> \$120000	<b>Technology:</b>
<b>Marital Status:</b> Married	<b>Work Experience:</b>	★★★★★
<b>Location:</b> San Jose, CA	8 years	<b>Social Media:</b>
<b>Occupation:</b> Consultant		★★★★★

## PERSONAL BACKGROUND

Stephanie was born in San Jose, California, and works full-time as a consultant for a tech firm. She enjoys grocery shopping and cooking. It gets chaotic after a busy day, finding food from a fridge and organizing the inventory. She sometimes ends up buying food already had and wasting it.

## NEEDS & GOALS

Needs to organize the refrigerator, manage the inventory, and purchase items online.

## EXPECTED FEATURES

An app that connects to online grocery shopping platform and easy one-click purchase

## PROBLEM WITH THE PROJECT

Needs to have a reliable online grocery delivery service. Inputting the purchased item into the app can be manually tedious.

## FRUSTRATIONS

Difficult to know items in the fridge, purchased date and expiration dates.

## DELIGHTFUL

Get notifications when items are about to expire. Items are that are low can be reordered via the app.

## RECOMMENDATION

Inputting items can be done by scanning barcodes, Qr codes, or selecting food image icons instead of typing manually.

UX

# User Story

“ I need to find an app to organize my fridge. It is hard to remember what I have and I end up wasting so much food! ”

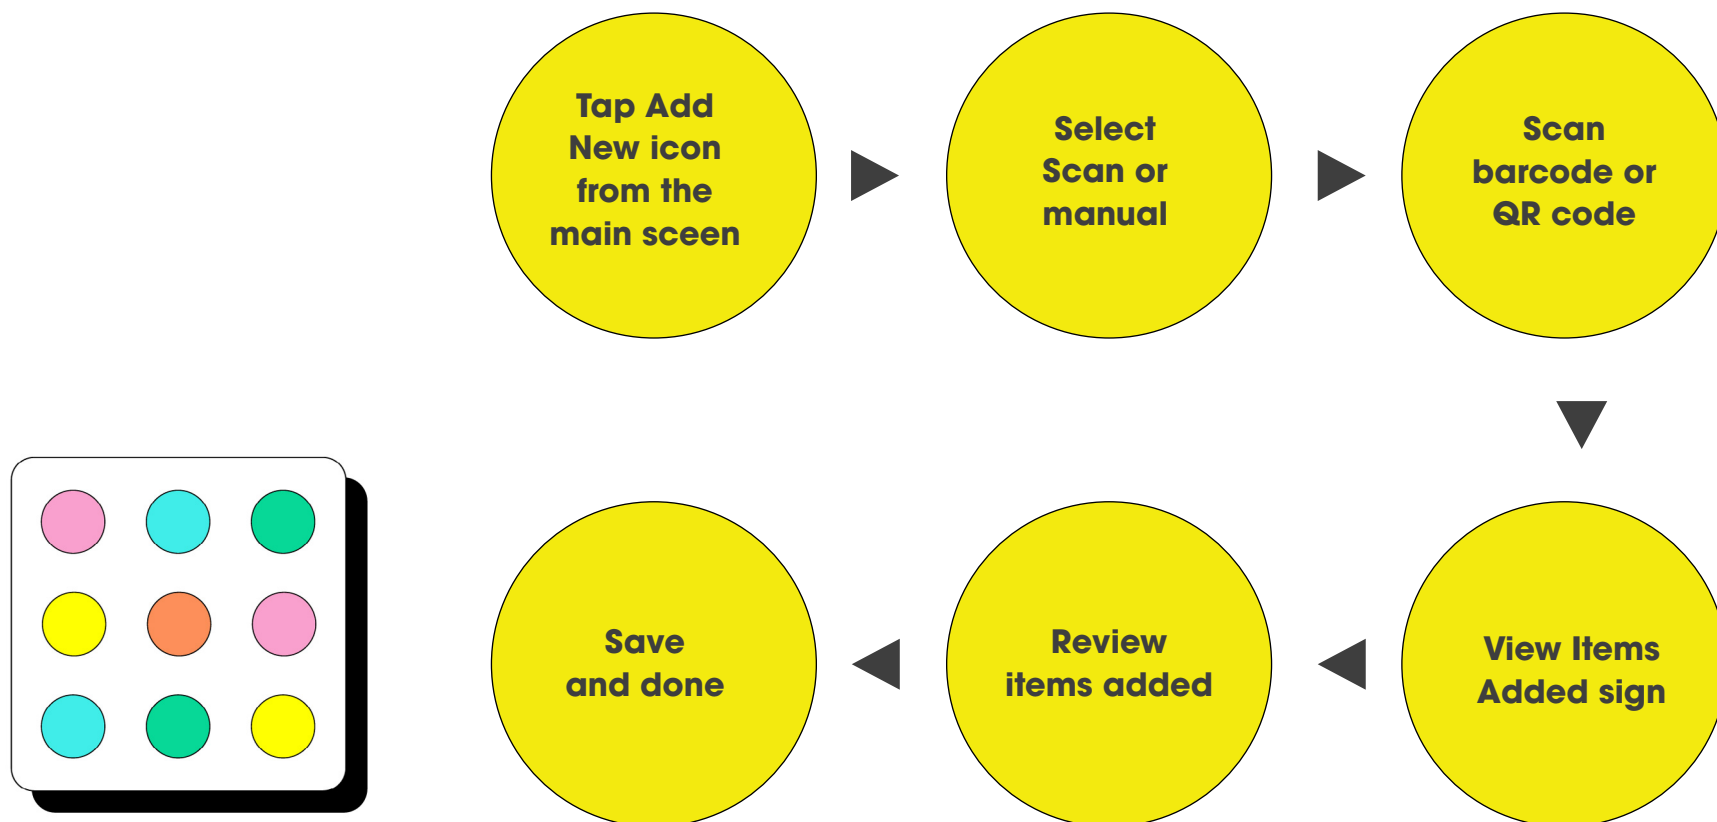

**Stephanie K.**  
**36. Female, Consultant**

**Stephanie enjoys cooking and grocery shopping. She works full-time and lives a busy life. She realizes that it is difficult to organize her fridge daily and it becomes messy. She hopes to find an app that can help her check and organize the inventory of her groceries. Jamie thinks it will be convenient to shop instantly when her groceries are low. She could also get tips about keeping things tidy and healthy food habits.**

# USABILITY STUDIES

## Summary

Based on the paper usability tests, some changes are made to increase the usability of the product.

Participant A

***“It is confusing to know what items are about to expire. The images are hard to figure out.”***

Participant B

***“I am not sure if I am looking at the refrigerator section or the freezer.”***

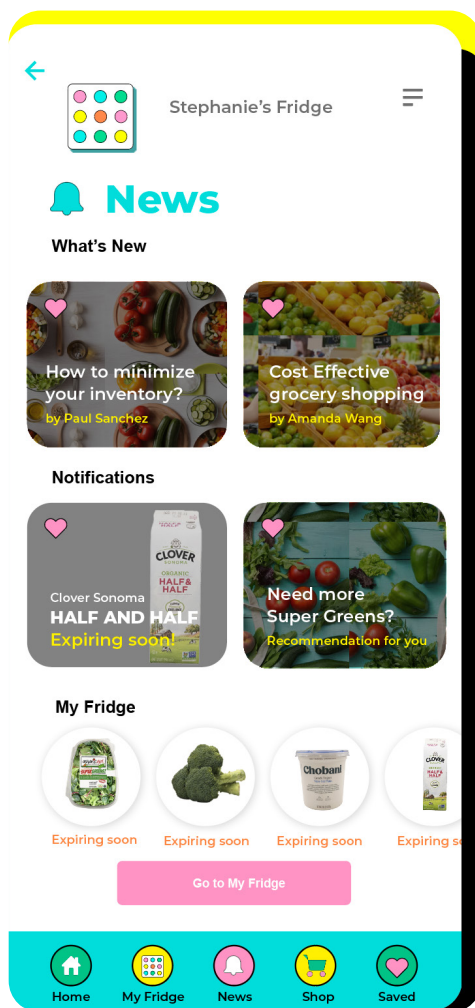

Participant C

***“I think the button descriptions can be more simple and short”***

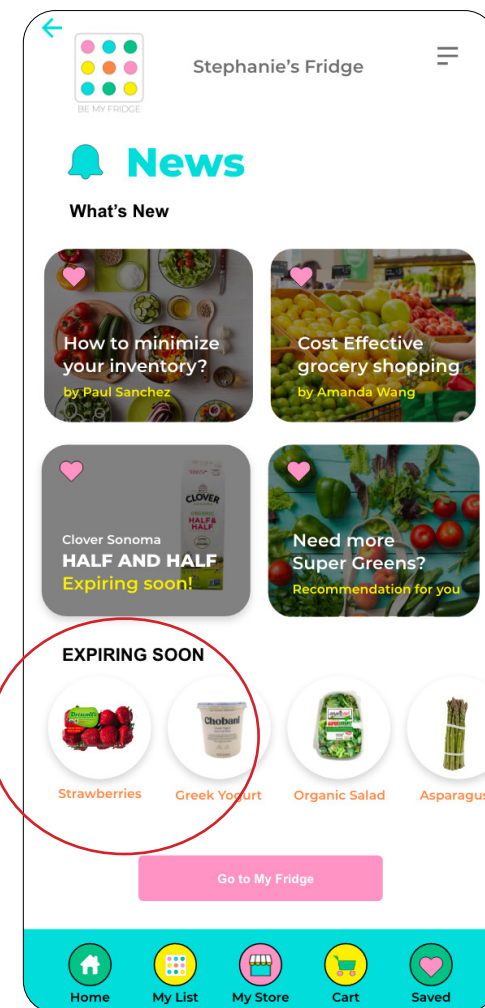

# USER TEST RESULTS

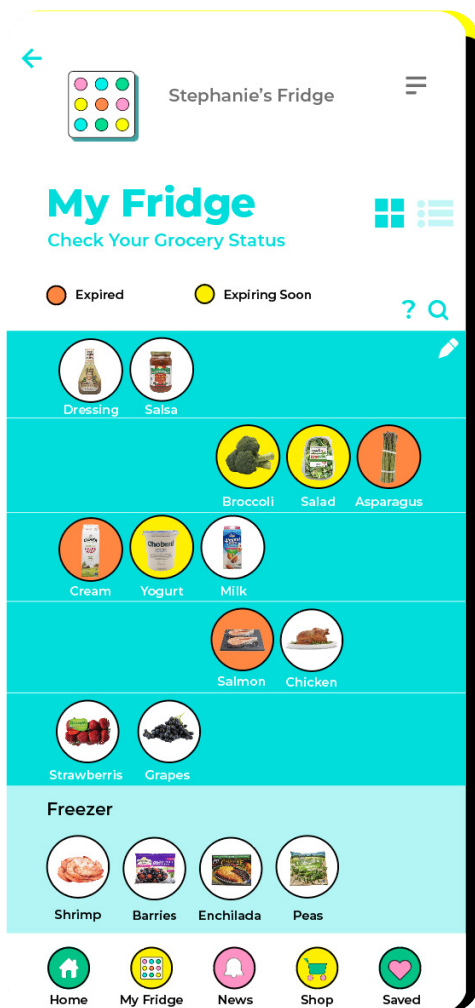

## MODIFICATION 1

The items that are about to expire are indicated with text and images together.

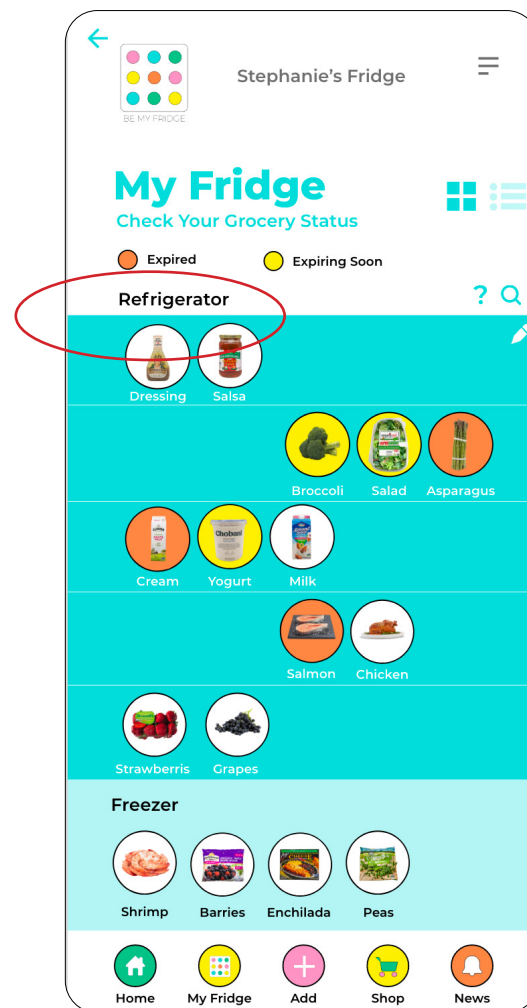

# USER TEST RESULTS

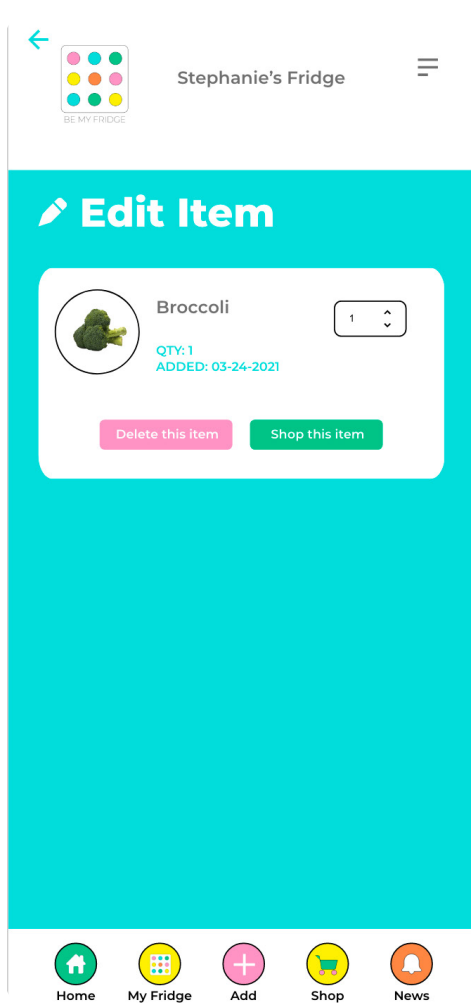

## MODIFICATION 2

The "refrigerator" section title has been added in addition to the "freezer" section.

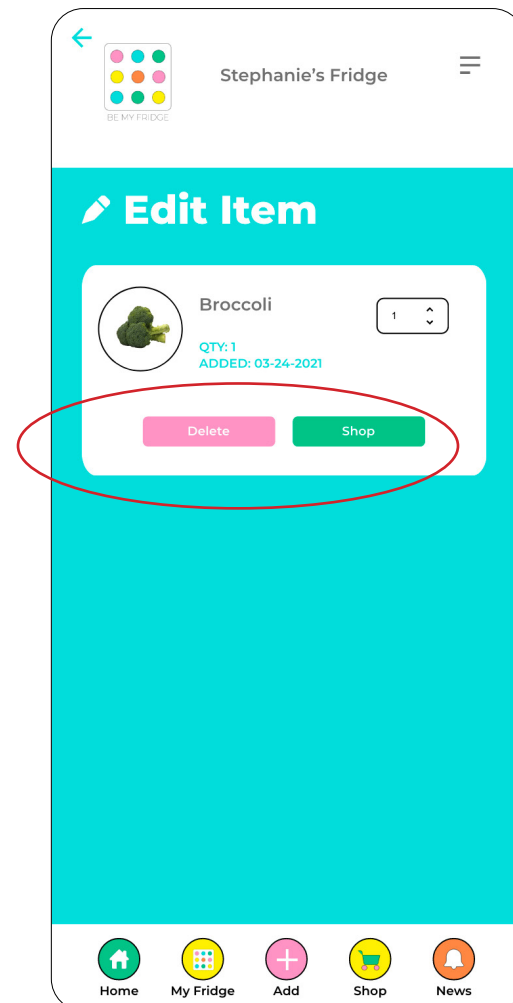

# USER TEST RESULTS

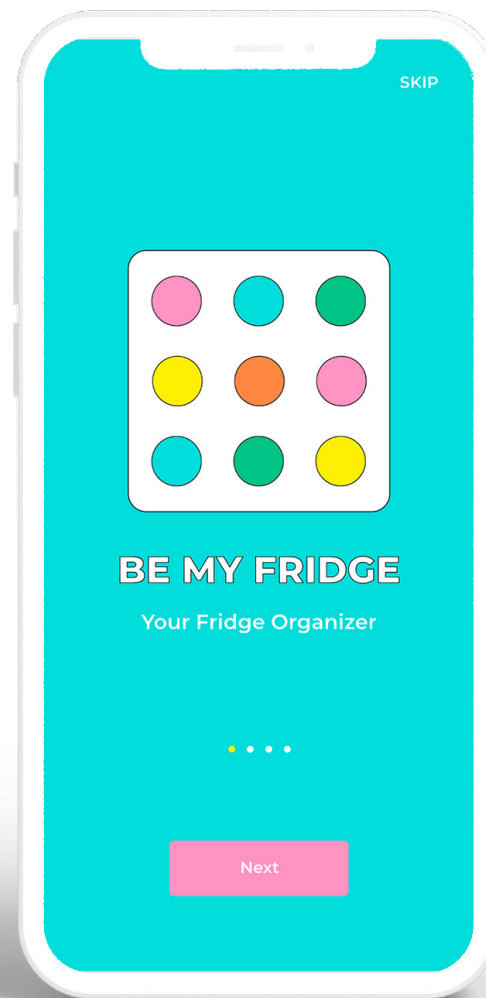

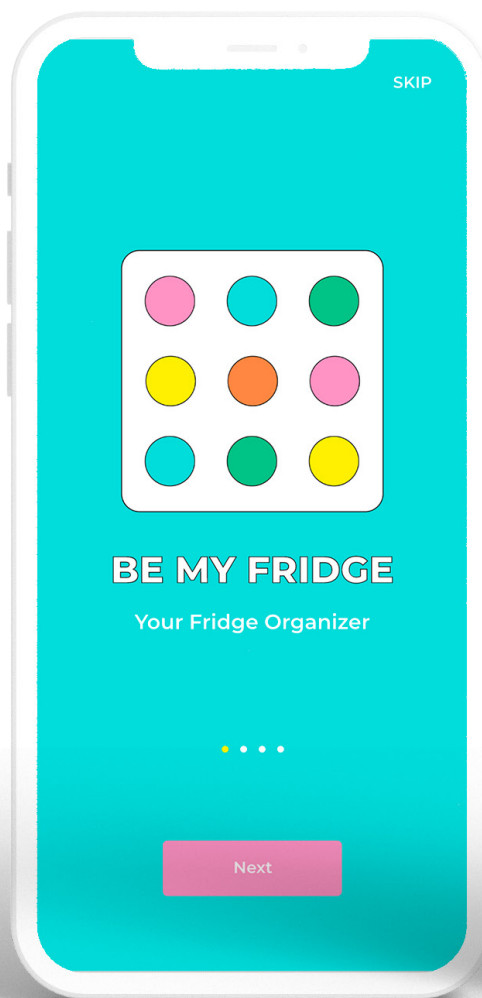

## MODIFICATION 3

The button descriptions are modified. It is short and easy to understand.
